

DATASHEET

Heatbeater™15

HEATBEATER
BY PPE-FACTORY

Pliable and highly insulating 5-finger glove with a service temperature of up to 600 degrees Celsius.

The glove is made of a para-aramid loop knit that has an extra insulating layer of light-duty para-aramid felt on the inside.

The glove has good mechanical resistance and also has a good insulation value for a glove with a high level of flexibility. The glove can be worn on both sides.

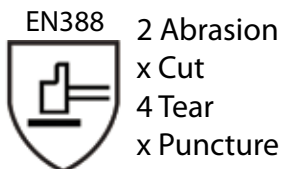

The glove is available in one size (size 11).
We recommend not to wash the glove.

Used palm-side materials:

- Para-aramid loop knit
- Light-duty Para-aramid felt

Used materials on the back:

- Para-aramid loop knit
- Light-duty Para-aramid felt

- x Burning Behaviour
- 3 Contact heat
- x Convective Heat
- x Radiant Heat
- x Small drops molten metal
- x Large drops molten metal
