

DATASHEET

Heatbeater™27

HEATBEATER
BY PPE-FACTORY

Robust mitten with a service temperature of up to 900 degrees Celsius.

Mitten made of IHR-coated fibreglass.

The mitten can be used on both sides, has a good mechanical resistance and also has a good resistance against welding flashes and splashes of molten metal. The mitten is also very suitable to hold and move hot objects.

The insulation value of this mitten is excellent.

The mitten is available in one size (size 11).

The mitten must not be washed.

Used palm-side materials:

- IHR-coated fibreglass
- Voluminous fibreglass
- Voluminous fibreglass
- Voluminous fibreglass
- Voluminous fibreglass
- Cotton loop weave

Used materials on the back:

- IHR-coated fibreglass
- Voluminous fibreglass
- Voluminous fibreglass
- Voluminous fibreglass
- Voluminous fibreglass
- Cotton loop weave
