

# Datasheet Heatbeater 10

Robust, strong and extreme heat resistant 3-finger glove with a maximum temperature of up to 900 degrees Celsius. The mitten is made of IHR-coated fibreglass. This special glove has a good mechanical resistance and also has a good resistance against small molten metal splashes. The 3-finger glove is also very suitable to hold and move very hot objects. The Heatbeater 10 is also extremely cut resistant and has a very good abrasion resistance. This glove is available in one size (size 11). The 3-finger glove must not be washed.

## Used palm-side materials:

- IHR coated fibreglass
- Voluminous glass fabric
- Light-duty Para-aramid felt

## Used materials on the back:

- IHR coated fibreglass
- Light-duty Para-aramid felt

## EN 388:2016

3 Abrasion  
x Blade cut  
4 Tear  
x Puncture  
F Cut

## EN 407

4 Burning Behaviour  
4 Contact heat  
x Convective Heat  
x Radiant Heat  
4 Small drops molten metal  
1 Large drops molten metal
