

Datasheet Heatbeater 28

Extremely heat-resistant mitten with a maximum service temperature up to 1,200 degrees Celsius.

The mitten is made of high-quality modified fibreglass.

The mitten can be used on both sides, it has a good mechanical resistance and also excellent heat insulating properties. The mitten is very suitable to hold and move extremely hot objects.

The insulation value of this mitten is excellent.

The mitten is available in one size (size 11).

We strongly recommend not to wash the mitten.

Used palm-side materials:

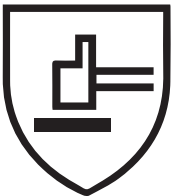

- High quality modified glassfabric
- 4 layers voluminous glassfabric
- Light duty Para-Aramid felt

Used materials on the back:

- High quality modified glassfabric
- 4 layers voluminous glassfabric
- Light duty Para-Aramid felt

EN 388:2016

- 2 Abrasion
- x Blade cut
- 4 Tear
- x Puncture
- x Cut

EN 407

- 4 Burning Behaviour
- 4 Contact heat
- x Convective Heat
- x Radiant Heat
- x Small drops molten metal
- x Large drops molten metal
